

TRAINING YOU CAN TRUST.

Enhance your team's safety, productivity, and confidence on the job with Brandt Operator Safety Training.

Highly Comprehensive

The course includes a theory portion followed by a hands-on practical training session and evaluation.

More Flexible

Safety training for all material handling equipment is available online, in class, and on site.

Fully Compliant

Brandt Operator Equipment Safety Certification meets and exceeds safety standards across Canada.

Train with us to...

- Reduce equipment, product, and facility damages
- Reduce WCB claims and premiums
- Increase productivity
- Ensure compliance with Occupational Health and Safety Act
- Enhance employee morale and company safety culture

What makes us different

- We can provide practical training & skills evaluations on equipment within Brandt Training Centres or on site on your specific mobile equipment.
- We can support your business with auditing, safe operating procedure development, and custom training program development.

What to expect

- Job site training includes complete worksite-hazard assessment training, equipment inspection training, and CSA/OHS compliant course material.
- Pricing is per person. Accommodation (at cost) and transportation fees (.61/km) will apply to job site locations outside of major centres.
- We also offer companies the convenience of online employee training solutions at home or at the workplace. You will be provided with an online theory diploma with confirmation of your passing theory exam. The online theory training would be beneficial to companies who have a health and safety manager or supervisor capable of completing the practical evaluation and pre-use inspection training in house.
