Job Overview

Reporting to the Supervisor, as the **HVAC Installer/Sheet Metal Worker** you will provide HVAC related assistance through all stages of the building process. As an apprentice, you will provide assistance to the to the HVAC Journeyperson. As a Journeyperson you will mentor, develop and provide guidance to HVAC Apprentices. Together, you are responsible for installing, maintaining, repairing, and overhauling residential refrigeration and air conditioning systems and their component parts in residential properties. Project management opportunities for those with drive!

Your day-to-day responsibilities will include:

- Reviewing project documents with Sales team clarifying any inquiries relative to designs and specifications. Conducting project site reviews prior to commencing work.
- Installing and servicing various residential HVAC equipment and performing duct work as required. Ensuring projects are completed efficiently and meet quality standard.
- Working safely and complying with Qualico's Safety Program and relevant safety regulations.
- Supporting and providing guidance to other team members as necessary.

Working Conditions

You primarily work on job sites during regular business hours (Monday to Friday), dispatched from the Star Mechanical location at 13835 164 St NW, Edmonton. Work has exposure to noise from equipment/machinery and occupational hazards as well as dealing with inclement weather and dust. Physical work pace and/or exertion brings on a limited amount of physical fatigue. We offer the opportunity to work additional hours.
